

# I-VOLUCE Series

True Multi-touch & Gesture Computing displays for vertical installation

I-VOLUCE M  
Multi-touch

I-VOLUCE G  
Gesture Computing

I-VOLUCE MG  
Multi-touch & Gesture Computing

## I-VOLUCE M

True Multi-touch LCD

6 or 32 simultaneous touch points

Available sizes :  
40",46",55",70",82"

Scratch-resistant glass

Full HD (1920 x 1080)

24/7 operation

## I-VOLUCE G

Gesture Computing up to a distance of 4m

Available sizes: 40",46",55",70"

Kinect sensor & display mount

WIN&I software for Windows 7 control

Full HD (1920 x 1080)

24/7 operation

## I-VOLUCE MG

True Multi-Touch LCD

Gesture Computing up to a distance of 4m

6 or 32 simultaneous touch points

Available sizes :  
40",46",55",70",82"

Scratch-resistant glass

Full HD (1920 x 1080)

24/7 operation

## A variety of True Multi-touch and Gesture Control LCD's

All models are vertical screens with Full HD LCD display quality in sizes ranging from 40" - 82". The series offers three options:

### I-VOLUCE M

Multi-touch

The units fast response driver software detects up to 6 or 32 touch points simultaneously. It supports full multi-touch functionality of Microsoft Windows 7 and all standard interfaces.

Our LCD's scratch-resistant glass provides premiere haptic to guarantee a smooth interaction.

### I-VOLUCE G

Gesture Computing

The integrated 3D depth-sensing technology replaces the computer mouse by tracking simple gestures from users up to 4m from the screen.

It includes the WIN&I software which opens up a new era in PC interaction. Windows 7 and thousands of applications can be controlled with this natural user interface. In addition to WIN&I, free demos are as well included.

Custom software solutions created by Evolute in combination with the Kinect sensor enable controller-free interaction.

### I-VOLUCE MG

Multi-touch and Gesture Computing

A unique hardware and software package that combines the advantages of controller free gesture interaction with precise touch screen technology.

The advanced slim display-design is ideal for large interactive installations. The I-VOLUCE Series can be easily mounted and used for areas such as: Business, Office, Retail, Digital Signage, Exhibitions, Gaming, Museums, Healthcare and Education.

## I-VOLUCE M/MG - Multitouch & Gesture Computing LCD's

Available sizes:	40",46",55",70",82"
Operation:	24/7
Number of touch points:	6/32
Mounting:	vertical, VESA mount
Operating system:	Windows 7
Screen resolution:	Full HD (1920 x 1080)
Screen surface:	anti-reflective, scratch-resistant
Touch response time Multi-touch:	7ms – 12ms
Supported OS (Multi-touch & Gesture Computing):	Windows 7
Warranty:	1 year (3 years optional for panels)
Interface (Multi-touch & Gesture Computing):	USB 2.0

## I-VOLUCE G - Gesture Computing LCD's

Available sizes:	40",46",55",70"
Operation:	24/7
Gesture Control:	up to a distance of 4m
Mounting:	vertical, VESA mount
Operating system:	Windows 7
Screen resolution:	Full HD (1920 x 1080)
Touch response time:	7ms – 12ms
Supported OS:	Windows 7
Warranty:	1 year (3 years optional for LCD panels)
Interface:	USB 2.0

## Available Accessories

Wall mount  
Table support stand  
High-performance pc/workstation

## Customized Software Solutions by Evoluce

With customized Multi-touch & Gesture  
Computing applications by Evoluce,  
software was never this easy to control.

## Evoluce Gesture Computing Kit

Kinect sensor  
Display mount

## Software

WIN&I for Windows 7  
Demo applications  
Multi-touch software
